Data Capture Platform

AUTOMATING COMPLEX INSPECTIONS

DATA CAPTURE PLATFORM

Drone Harmony's market-first 3D data acquisition platform for enterprises consists of mobile and web applications and a cloud service, all fully integrated. It is designed for easy incorporation into the enterprises' infrastructure workflow and supports off-the-shelf, widely available drones.

Repeatable and Reliable Process

Gather the same high-quality data every time, regardless of the operator.

Swiss Safety and Data Security

State of the art data security and on-premise system installation.

Built for Collaboration

Enable easy collaboration between engineers and field operators within your organization.

Quality and Scale through Automation

Reduce manual work to a minimum to ensure quality results are achieved at scale.

Mobile, Web and Cloud

A multi-platform system always at your fingertips whether you are in the office, or in the field.
